

Take Advantage of This Opportunity and Join Our Team as

Market Analyst (m/f)

Interenergo is an international energy company headquartered in Ljubljana and a part of Austrian Kelag Group. We're playing a crucial role in our region's shift towards cleaner energy solutions. From investing in, building, and operating renewable energy technologies to actively trading and providing tailored energy services, we're dedicated to driving this transition forward.

As a market analyst in the dynamic energy sector, you will be able to utilize your analytical skills to support trading execution and the creation of trading strategies for short-term, mid-term, and long-term trading.

We are looking for an expert with a keen interest in the world of trading, who will support our trading team in market analysis and trading strategy development.

If monitoring markets is not new to you, if you are interested in electricity trading, and if you wish to support strategy development with modern analytical approaches and machine learning, then don't hesitate to join the Interenergo team!

Your responsibilities

- Independently analyzing the electricity market and other energy commodities, cross-border trading, and preparing reports as directed by the manager.
- Assisting in the development of strategies, processes, and tools for trading activities.
- Updating and enhancing existing tools and reports, and creating new tools based on department needs.
- Analyzing and monitoring the electricity market, prices, and regulatory developments.
- Developing and maintaining forecasting models.
- Collaborating in teams, supporting strategic planning, and decision-making.
- Conducting scenario analysis to assess the impact of market changes.
- Providing insights into market dynamics and identifying potential opportunities.

Your key attributes and qualifications

- Experience in market analysis in the energy sector or related fields.
- Bachelor's or Master's degree in economics, mathematics, physics, computer science, or other technical fields.
- Analytical and problem-solving abilities.
- Programming knowledge and familiarity with data analysis programs (advanced knowledge of Excel, Python, and/or related programming languages).
- Ability to interpret complex data and findings.
- Proficiency in Slovenian and English.
- Communication skills and willingness to collaborate in a team.
- Interest and desire to follow trading activities in the energy sector.

Why join us

- An established company that is part of Austrian Kelag group, with strong ties across 7 markets in South-eastern Europe.
- An international work environment that fosters personal and professional growth.
- Exposure to various technologies across all life cycles of production units (from development to operation).
- A comprehensive onboarding and rotation process.
- Open communication and collaboration.
- Emphasis on ongoing learning and personal growth through allocated budget for training initiatives, conferences and language courses.
- An internal recreational program offering a range of activities including fitness sessions, squash matches, and skiing tournaments.
- Option to use the Group's holiday accommodations in Carinthia, Austria.
- Supplementary health and pension insurance.

We are expanding our team! If you don't find yourself in the job description and experience listed but have experience in other areas and a strong desire to develop your career at Interenergo, we want to meet you.

We invite you to send us your applications with the attached CV no later than **31.03.2025** by e-mail to: **info@interenergo.si** or by regular mail to: **Interenergo, d.o.o., Gosposvetska cesta 11, 1000 Ljubljana.**
